

# ZIP ALERT

Vol. 5, No. 3

October 1995

## ZIPMOVE

Many address-matching problems could be resolved if software vendors used a file called *ZIPMOVE* which was created to assist the address-matching software process. Our objectives in creating this file were:

- to maximize the mailing industry's ZIP Code matching potential in situations where ZIP Code realignments have taken place.
- to realize the fullest potential of address-matching software applications for our customers.
- to minimize the amount of undeliverable-as-addressed mail.

Mailers are encouraged to incorporate *ZIPMOVE* into their address-hygiene process as a means of correcting addresses that have undergone a ZIP Code realignment where a change in city name and finance number occurred.

*ZIPMOVE* is available on a monthly or quarterly subscription basis. Contact the Customer Support Department at the National Customer Support Center at (800) 238-3150 for current pricing and ordering information.

*ZIPMOVE* contains data corresponding to address ranges that had their city name, 5-digit ZIP, and their USPS finance number changed as a result of a ZIP Code realignment.

This product also includes records contained within the same finance number identified as multiple choice records that have recently experienced a change in ZIP Code.

The Postal Service suggests that you run your address lists through *ZIPMOVE* before they are put through the Coding Accuracy Support System (CASS) process. To use *ZIPMOVE*, compare addresses on your lists to the old addresses in *ZIPMOVE*.

When a match is achieved, the new last-line information from *ZIPMOVE* is the corrected information you should use.

## Line of Travel

A new product is available from the Postal Service—it's called Line of Travel (LOT). LOT is designed to enable mailers to determine the relative delivery sequence of their carrier-route presorted mailing lists.

The LOT file contains the following attributes:

- ZIP Code
- Carrier Route Indicator
- Add-on range
- Line of Travel Number
- LOT Ascending/Descending Code.

## RIBBS and ZIP Alert

We are pleased to announce that **ZIP Alert** is now available on the Rapid Information Bulletin Board System (RIBBS).

This permits subscribers to download the entire publication as a text file. The first edition available in electronic format was the July 1995 ZIP Alert. To access this file, go to the RIBBS Main Menu under Address Quality and select ZIP Alert. This should assist customers who want to use some of the many address lists we publish in each edition. To access RIBBS via a modem, dial 1-800-262-9541.

### *In This Issue...*

- ▶ 2 Software Matching Problems
- ▶ 2 Drop Ship Update
- ▶ 3 ZIP Code Boundary Realignments
- ▶ 4 Renumbered Post Office Boxes
- ▶ 5 Address Conversions
- ▶ 11 Post Office Changes

*Continued on page 2*

*LOT continued from page 1*

The line of travel number indicates the relative delivery sequence of the ZIP+4 Code within the Carrier Route. The Ascending/Descending Code indicates whether the majority of the deliveries within the ZIP+4 Code are delivered in ascending or descending order.

The Postal Service requires that your address list be processed through Coding Accuracy Support System (CASS) certified ZIP+4 address-matching software *before* being processed against the Line of Travel (LOT) product.

Non-ZIP+4 Coded records are not to be used with this product.

Use of this product will not qualify the mailer for walk-sequence discounts, as the sequence capability provided by LOT is not exact.

## Drop Ship Update

Beginning September 16, the SCF Thibodaux, LA 703 was relocated to SCF Houma, LA 703. SCF 704, formerly Hammond, LA was assigned to Mandeville, LA 704.

## Software Matching Problems

Listed Below are several items of interest from our AMS offices:

**San Jose CA**—To eliminate a duplication of Rural Route numbers in the San Jose Finance number 05-6834 the AMS office is renaming the Rural Route in zone 95135. The old number of R003 is changed to R005. There will be two Rural Routes in the city of San Jose: R005 in 95135 and R003 in 95138.

The **Leonard, MN** 56652 Post Office was discontinued and a CPO was established on January 1, 1995. Clearbrook, MN 56634, Finance number 26-1770, was named the administrative office. The Leonard, MN 56652 customer addresses are being changed to Clearbrook, MN 56634.

Mailers in **Spokane, WA** and some within the surrounding area often use a non-standard delivery address line on their mailpieces that is affecting delivery service. This habit stems from an old addressing ordinance established in 1891 that dictated the directional to become a prefix to the primary street number.

On April 20, 1992, however, the City Council of Spokane officially nullified this ruling and reverted to standardized addressing. Despite this ruling, mailpieces continue to reflect addresses like W999 MAIN ST when the correct reference should be 999 W MAIN ST. When the old format is matched against address-matching software or processed through the automated mailstream, it often results in misdirected mail.

The **Atlanta District** split five delivery ZIP Codes July 1, 1995. ZIP Codes 30152 and 30215 had previously been assigned, but both were discontinued approximately ten years ago. Some mailers are using the old last line names for the new ZIP Codes, while others are using Flippen GA for 30215 which is now assigned to Fayetteville GA. Other commercial mailers are using Pine Log GA for 30152 which is now assigned to Kennesaw GA.

The **Lancaster, VA** Postmaster alerts mailers of a problem concerning the conversion of the last line city name of Lancaster to Alfonso for customers in ZIP Code 22503. This may be due to the recent closure of the Alfonso Post Office and the deletion of ZIP Code 22421. Alfonso retained its status as an acceptable mailing name under ZIP Code 22503, but the preferred last line city name is Lancaster. However, many commercial mailings to 22503 are converting all their city names to Alfonso. Only customers previously serviced out of Alfonso VA 22421 should be assigned the city name of Alfonso.

**ZIP ALERT** is published quarterly by the United States Postal Service, National Customer Support Center in Memphis, Tennessee. To order additional copies of **ZIP ALERT**, call the Customer Service Department at (800) 238-3150. Submit written articles, information, or changes of information to:

**MICHAEL GARNER  
NATIONAL CUSTOMER SUPPORT CENTER  
UNITED STATES POSTAL SERVICE  
6060 PRIMACY PKWY STE 101  
MEMPHIS TN 38188-0001**

Duplication of articles or information protected by copyright laws or use of this publication's content in a way other than that for which it was intended, without the express written consent of the National Customer Support Center or the United States Postal Service, is prohibited.

## ZIP Code Boundary Realignment

The following ZIP Codes have lost and gained deliveries due to an adjustment of ZIP Code boundaries.

FROM ZIP	TO ZIP	DELIVERIES CHANGED	EFFECTIVE YEAR	DATE MO

## Renumbered Post Office Boxes

This file lists post office boxes that have been renumbered. The old range is the range of PO Box addresses prior to renumbering, and the new range is the range after renumbering. If the numbering change coincided with a ZIP Code change, the newly assigned ZIP Code appears in the New ZIP column. The Continuity column indicates whether the renumbering was accomplished only by changing or adding leading characters. If that was the case, Y appears in the Continuity column.

OLD ZIP	NEW ZIP	OLD RANGE		NEW RANGE		CONTINUITY
		LOW	HIGH	LOW	HIGH

## ADDRESS CONVERSIONS

The following is a list of ZIP Codes within which all or some of the addresses have been changed due to local government action. The Postal Service has agreed to use these new addresses as mailing addresses. Should a mailer wish to obtain the new addresses for customers in the affected ZIP Codes, they may contact the respective delivery unit, the Address Management Systems office serving that area or any LACS licensee. We also recommend you review the information posted on the Rapid Information Bulletin Board System (RIBBS) via our toll free number, (800) 262-9541. This information can be found on RIBBS under the *Address Management Menu*, item 1—text files LACSZIP.TXT, LACSZCHG.TXT and LACSMGMT.TXT.
